WORK EXPERIENCE

GoCrayons Digital Inc.

January 2026 - May 2026

Game Developer Intern

- Developed 2D game prototypes using Godot Engine and GDScript, implementing gameplay mechanics, UI logic, and scene management.
- Conducted manual testing, identified bugs and UI/UX issues, and created structured bug reports with reproduction steps.
- Improved application stability through iterative testing and refinement.

Silvercrest

June 2026 - August 2026

Outsourcing Specialist

- Conducted outreach to assigned leads through LinkedIn and provided scheduling links to interested prospects.
- Followed up with leads and maintained organized prospect information throughout the outreach process.

PROJECTS

Meeko's Haven (Academic Project)

Olivarez College Tagaytay

Tech Stack: PHP, MySQL, HTML, CSS, Bootstrap, jQuery, AJAX

2025

- Developed a web-based management system for products, categories, users, and website settings.
- Implemented CRUD functionality and database operations using PHP and MySQL.
- Developed responsive user interfaces using HTML, CSS, Bootstrap, and jQuery.
- Implemented session handling and prepared statements for database interactions.

Canteen Ordering App (Capstone Project)

Olivarez College Tagaytay

Tech Stack: Flutter, Dart, Firebase, Supabase

2025 - 2026

- Developed a mobile ordering application with authentication, menu display, shopping cart, and order tracking.
- Built an admin system for menu items, categories, inventory, and order processing.
- Integrated Firebase Firestore for real-time database operations and Supabase Storage for image management.
