PROFESSIONAL SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on experience in software development, web development, game development, and quality assurance through academic projects and internship training. Skilled in Flutter, Firebase, Supabase, PHP, JavaScript, and Godot Engine, with experience in developing mobile applications, interactive games, software testing, debugging, and troubleshooting. Strong problem-solving abilities and a commitment to developing reliable, user-friendly, and efficient digital solutions.

EDUCATION

Olivarez College Tagaytay Bachelor of Science in Information Technology	Tagaytay, Philippines Graduated: 2026
- Academic Merit Awardee - Best Use of Frameworks and Libraries (Project Recognition)	
Philippine Christian University Science, Technology, Engineering and Mathematics (STEM)	Dasmariñas, Philippines Graduated: 2022
With honors	

THESIS PROJECT

Canteen Ordering Application Bachelor of Science in Information Technology Thesis project	Olivarez College Tagaytay 2025 - 2026
- Developed a mobile-based canteen ordering and management system for Olivarez College Tagaytay using Flutter. - Implemented menu management, order processing, user authentication, and order tracking functionalities. - Utilized Firebase Firestore for real-time data storage and management. - Integrated Supabase Storage for image upload and storage of menu items and other system assets. - Designed and developed a responsive and user-friendly interface to improve the ordering experience. - Conducted system testing, debugging, and feature enhancements to ensure system reliability and performance.	

WORK EXPERIENCE

GoCrayons Digital Inc. Game Developer / Game Tester	Internship / On-the-job Training January 2026 - May 2026
- Developed fully playable 2D game prototypes independently using Godot Engine and GDScript, from concept to deployment-ready builds - Implemented core gameplay systems including player controls, mechanics, UI logic, and scene management - Conducted manual testing on assigned projects to identify bugs, gameplay issues, and UI/UX inconsistencies - Created structured bug reports with clear reproduction steps to support debugging and optimization - Improved gameplay stability and user experience through iterative testing and refinement	

SKILLS

- Programming Languages:** Python, Java, C++, JavaScript, PHP
- Frontend:** HTML, CSS, Bootstrap, jQuery, Vue.js
- Frameworks & Backend:** Flutter, Laravel
- Database:** MySQL
- Cloud & Services:** Firebase, Supabase
- Game Development:** Godot Engine (GDScript)
- Quality Assurance:** Manual Testing, Test Case Creation, Bug Reporting, UI/UX Testing
- Version Control:** Git, GitHub, Bitbucket
- Tools:** Visual Studio Code, Android Studio, XAMPP

- **Technical Support:** Hardware/Software Installation, Troubleshooting, System Setup, Networking Basics
- **Soft Skills:** Problem-Solving, Teamwork, Communication, Time Management
- **Languages:** Filipino, English
